

At home with our families

Names

Lola Roca Aguilera and Jochen Pichler

Location

Gloucestershire

Why did you start hosting?

We started hosting because we enjoy the company of young people and the energy they bring to our home. We both work in secondary schools and love being surrounded by international students from whom we learn a great deal. We love travelling ourselves and love chatting to students from other countries.

What is your favourite thing about hosting?

Our favourite thing is spending time with our guests. We love sharing our family life with them and we also love learning about them and what makes you happy. Both my husband and I have studied abroad and have very international backgrounds. We understand and sympathise with our guests and love making their stay homely and fun.

We would
highly
recommend
being a host
family!
